

Model

1. The pressure sensor module is a small, rectangular electronic component with a black plastic housing.

2. The pressure sensor module is a small, rectangular electronic component with a black plastic housing.

3. The pressure sensor module is a small, rectangular electronic component with a black plastic housing.

4. The pressure sensor module is a small, rectangular electronic component with a black plastic housing.

5. The pressure sensor module is a small, rectangular electronic component with a black plastic housing.

6. The pressure sensor module is a small, rectangular electronic component with a black plastic housing.

7. The pressure sensor module is a small, rectangular electronic component with a black plastic housing.

8. The pressure sensor module is a small, rectangular electronic component with a black plastic housing.

9. The pressure sensor module is a small, rectangular electronic component with a black plastic housing.

10. The pressure sensor module is a small, rectangular electronic component with a black plastic housing.
